

Quest's Role as Work Finder and Referral to Assure Solutions

I understand that Quest Employment Limited ('Quest') is my work finder and I have signed a work finder agreement setting out the terms of our agreement. I will be supplying my services to Quest's clients and Quest is responsible for supplying my services. Quest is available to support me throughout all of my assignments with its clients. The details of my assignments, including location and rates of pay applicable, are provided separately. I understand that Quest is not my employer.

Quest will pass my details to a business called Assure Solutions. Assure Solutions will then put me in contact with my employer who will give me a contract of employment, which I will sign and return.
